

English Reports – Dave

Dunia

Dunia has made pleasing progress in English throughout the last fortnight. Although at times it has been difficult for her, due to her limited writing and English skills, she has consistently displayed a positive attitude and has willingly engaged in numerous oral activities that we have undertaken. As a consequence, her spoken English has improved significantly over the past 14 days and I am certain that with future studies will continue to do so.

Liza

Liza is a hard-working student who has made good progress in English in the last two weeks. Her natural ability and positive work ethic have ensured that she has consistently produced written and oral work of a pleasing standard. Indeed, her work on endangered animals and her traveller's guide to Cyprus are two excellent examples of both the high level that she is working at and how hard she has worked in the last fortnight. I hope that Liza will continue to work at her English language skills as she has the ability to do very well in this subject should she choose to do so.

Ivan

Ivan is an enthusiastic and motivated student who has made pleasing progress in the last two weeks. Within the classroom environment Ivan has made numerous invaluable contributions in both answering questions and making a variety of points in several discussions that we have had. Ivan has also demonstrated that he has developed reading and pronunciation skills and he is comfortable reading large sections of text to the rest of the class. For Ivan to improve his English skills further he should try to add more detail to his extended writing skills as at times in the last 14 days some of his work has been a little lacking when it comes to developing points. I hope that Ivan will continue to work on his English over the coming years as he certainly has the natural ability to reach a very high level in this subject should he choose to do so.

Batraz

Batraz is an enthusiastic student who has made steady progress in English over the last two weeks. When it comes to oral (both spoken and reading) activities Batraz is always motivated and is capable of working to a very pleasing level. However, unfortunately, this motivation has not materialised when we have done written activities which consequently has resulted in him producing several pieces of written work which are of a standard that are significantly lower than he is capable of. For Batraz to improve in this area he should try to add more detail to his work rather than doing the minimum that is acceptable. I hope that Batraz will continue to work on all aspects of his English language skills as he certainly has the potential to do very well in this subject should he choose to do so.

Anna

Anna is a hard-working student who has made excellent progress in English over the last two weeks. Her positive work ethic combined with her natural ability has resulted in her consistently producing work of a highly impressive quality in all areas of the English language course. The one area where Anna could continue to improve is in relation to her oral contributions in class as at times over the last fortnight she has been extremely quiet, despite knowing the answers. I hope that Anna will continue to study English as she has the natural ability and application to reach an extremely high level should she choose to do so.

Alice

Alice is a motivated student who has made pleasing progress in English over the last two weeks. Her positive attitude and desire to learn has resulted in her producing a number of pieces of creative work that have demonstrated a developed vocabulary and a good level of written English. Her travel brochure on Disneyland, Paris is a good example of both her creativity and the quality of work that she is capable of. Through both her confident answers in class and contributions to discussions Alice has also shown that she possesses a pleasing level of oral English. In general, it has been a pleasure to teach Alice and I hope that she will continue to study English to a very high level.

Gleb

Gleb is a studious individual who has made pleasing progress throughout the last two weeks. His methodical and consistent approach to English has resulted in him producing a number of pieces of class work of a very pleasing quality. In relation to his oral English, I would like to see Gleb have a little more confidence in his English level as he is sometimes a little unsure of himself, despite the fact that he nearly always has the correct answer. In general, Gleb has been a model student and I have thoroughly enjoyed teaching him. I wish him all the best for his future English studies and am sure that he has the natural ability and application to go far.

Ksenia

Ksenia is a hard-working and motivated student who has made good progress in English over the last 14 days. Her positive attitude and impressive work ethic has resulted in her consistently producing both class work and home work of a very pleasing quality. In addition, through her answers to questions and oral contributions in class, Ksenia has also demonstrated that she possesses both a developed vocabulary and sound oral skills. I have no doubt that Ksenia has the natural ability and application to do extremely well in the subject if she chooses to do so and I wish her the very best in her future studies.

Timur

Timur has made mixed progress over the past fourteen days. Although on occasion he has shown enthusiasm for some of the oral and reading activities that we have undertaken his general work ethic has been quite poor and he has failed to complete many of the written activities that we have done as a class. Timur is comfortable reading in English and his pronunciation and oral skills are reasonably developed. However, it is important that if he wants to progress further that he puts more effort in to his written work as this will not only help him with his oral English but will significantly improve his vocabulary. I hope that Timur will continue to study English and I wish him the very best in his future studies.

Kirill

Kirill has made steady progress in English over the last fourteen days. He has demonstrated that he possesses good reading skills and has worked hard on improving his pronunciation. In addition, Kirill has significantly improved his vocabulary which has been shown in both his written and oral work. For Kirill to improve further he must continue to practice reading, writing and speaking English as often as is possible. I have no doubt that Kirill possesses the natural ability to do very well in this subject should he choose to do so and I wish him all the best in his future studies.

Nick

Nick has made mixed progress in English over the past 14 days. At times he has produced work of an extremely impressive standard, such as his work in the debates and the Paris travel brochure. However, on other occasions a poor work ethic and negative attitude has resulted in him producing a standard of

work that is significantly below what he is capable of. For Nick to make the most out of his future English lessons he must try to put maximum effort in to all of the activities and not just those that he finds interesting or enjoys. In general, I have enjoyed teaching Nick and wish him the very best with his future studies.

Daniil

Daniil is a naturally gifted student who has made pleasing progress over the last fourteen days. He has demonstrated that he possesses developed language and vocabulary skills and has produced several pieces of work that have been of a very high level. Daniil has particularly excelled in his spoken English where he has made several interesting comments in class that have resulted in a broader discussion. For Daniil to improve further he should try to include more detail in his written work as on several occasions over the past fortnight his points have lacked development. In general, Daniil has been a pleasure to teach and I wish him all the best in his future studies.

Anastasia

Anastasia is a naturally gifted student who has consistently demonstrated a very high level of English language skills throughout the last fortnight. She has consistently produced written work that is both detailed and accurate and has incorporated a high level of creativity in to her work. Anastasia is confident when speaking English and over the past 14 days has significantly improved her vocabulary. I hope that Anastasia will continue to study English as it is very clear that she has the ability and application to go extremely far in this subject. I have thoroughly enjoyed teaching Anastasia and I wish her the very best in her future studies.

Alexey Khomin

Alexey is a naturally gifted student who has made excellent progress in English over the last fortnight. He has consistently produced work of an impressive standard and has worked hard to improve his English language skills. Alexey is confident when speaking and writing in English and over the past 14 days has significantly improved both his grammatical skills and his vocabulary. Whenever possible Alexey should try to find the time to read, speak and write in English every day as this will enable him to progress to the next level. In general, Alexey has been a model student who I have thoroughly enjoyed teaching and I wish him the very best in his future studies.

Alexey Khmarnyi

Alexey is a talented individual who possesses the natural ability to do extremely well in this subject should he choose to do so. At times over the past 14 days he has produced both oral and written work of a very high standard, such as his travel brochure and dream school. However, on other occasions a failure to put maximum effort in to his work has resulted in him producing work that is of a standard which is a little below what he is capable of. In general, I have thoroughly enjoyed teaching Alexey and I wish him the very best in his future English studies.
