

Trip to Krka waterfalls

Croatia 2013 21st Century Integration International Summer school Trip to Krka Waterfalls

Our group had an amazing trip to one of the Croatian national parks, named after the river Krka that it encloses. There were lots of things to do as the park has many attractions and facilities. We explored various footpaths, had a sightseeing tour and enjoyed a boat trip. We bought some lovely souvenirs of our time there. There are some archeological remains of abandoned fortresses in the park's vicinity which date back to the Roman times.

**Krka -
touching history and experiencing nature
in their beauty, together**
