

### **When you tell the story of my life...**

Say that my name is Lera, I am sixteen years old now.  
In my lovely family I have, of course, my mom and dad,  
and the smallest member is my 10-years-old sister.  
Her name is Kira. She looks like my mother.  
Their eyes and other details are quite the same.  
Kira, I think, will be an artist in future,  
cause she really loves to draw (and probably to paint),  
but she says that she wants to be a doctor.

Say that my parents are engineers,  
that they finished the Moscow Institute of Avia-systems perfectly.  
But their life-activity is not connected with their profession;  
my mother is economist  
(she ended the finance academy and took the second diploma),  
and my father organized his own business.  
Talk about the funniest member of my family,  
Alice, our five-month old cat.

Write that I passed the entrance exams to IB school when I was in a fifth grade.  
I dreamed of studying science and I began to learn English.  
I was born in Moscow, so I did not have any problems achieving my dream,  
so, as u can see, now I am in the 21<sup>st</sup> Century Integration school.

Write that I can't live without music,  
Especially rock, punk, metal, folk  
and some kinds of instrumental and classic music.

Say that in future I want to be a journalist and the novelist.  
I have a lot of ideas that I want to explain to masses,  
so I will progress in this way.  
I really like to read books, to create my own texts and so on.
