

Integration 21st Century

International Summer School Croatia

We are here!

2024

www.integration21.hr

INTRODUCTION

Integration 21st Century International Summer School was founded 10 years ago and since then has opened its doors each summer to international students aged 6-18 via a unique English summer programme. We offer students a chance to combine creative expression and action-packed adventure on the picturesque Adriatic coast with academic learning and exploration.

We pride ourselves on our outstanding location, our brilliant team of IB-qualified teachers from the USA, England and Canada, our unique academic & activity programmes, and the quality of long-lasting friendships formed within our walls.

ACADEMIC PROGRAMME OVERVIEW

Our programme consists of compulsory but very engaging morning English lessons (2.5 hours daily) and a choice of afternoon activities (including further English tuition) (1.5 hours daily) which develop each individual's abilities through reading, writing, performance and personal projects. Every day this "academic" section is followed by 3.5 hours of active sports. Groups consist of no more than 10 students, taught by native speakers of English and looked after by a tutor.

English Language (morning)

This programme caters for all levels of ability and assists students in becoming proficient in English while immersing them in an English-speaking environment. Many international friendships find their roots at our Summer School. As well as mixing and mingling with English-speaking friends, the academic EFL course allows students to improve their language skills in a disciplined (but unpressured) classroom environment.

AFTERNOON WORKSHOPS

After the compulsory morning English classes, we offer a choice of the following afternoon workshops:

- Academic English
- LEGO Club (robotics)
- Arts and Drama
- Business Enterprise
- Film Academy
- 3D Modelling/ Development

Our varied and innovative teaching techniques and supplementary materials, including high end computer, video and music equipment as well as out-of-classroom projects keep courses fun and ensure that spirits stay high, and students stay strongly motivated to achieve individual progress in their chosen direction.

At the end of their stay, students will receive an individual report for every academic course they complete. This will bring together the topics covered in class, and offer positive and constructive feedback to help them build on their successes.

All classes and workshops are taught by highly qualified EFL teachers and teachers from IB schools worldwide (see our website for some of their profiles).

International Baccalaureate

We recognise that the IB Programme is one of the most challenging available to young people today. Among its basic tenets is the development of sound communication skills and self-awareness within an international cultural environment. Our summer school serves these principles well by creating just such an environment where people from different cultures meet, socialize and extend their knowledge.

For groups of 10 or more, we offer subject-specific courses at the IB DP and Pre-DP Level. As these courses are tailored to each group, please contact us to discuss your requirements.

If you are interested in sharp debate on current affairs, wish to learn to express and defend your own views in acute discussion, and to compare them with the approaches taken by your peers abroad, you simply must attend our conference for International Baccalaureate students.

It is here that we aim to bring together IB students with genuine academic flair, and let their IB dreams take flight. Delegates will listen to and interview recognised experts from different countries; research and present their findings at workshops; participate in debates; and exchange their personal, well informed and developed opinions with each other in a polished way, facilitating IB success.

AFTERNOON SPORTS ACTIVITIES

While a few hours each day are spent studying, the rest of the time provides students with a chance to relax and enjoy the hot summer at the seaside. Students will learn not only to swim well but to water-ski and/or wakeboard, kite- or wind-surf, dive like a pro, and have guaranteed fun being towed on a banana boat and other inflatables.

Swimming contests, beach volleyball, water relay, morning stretching and aerobics at the seaside are all a necessary part of our programme which ensures not just progress in our students' spoken English but helps their health, trains endurance and encourages their active lifestyle.

Tennis, football, water polo, climbing, mini-golf and other fun pursuits are all represented at our evening "Olympic Games".

All sports training is conducted in English by teachers and coaches holding international qualifications and experienced in working with children as well as adults.

EVENING EVENTS AND ACTIVITIES

After dinner we offer all participants a varied social and entertainment programme. This includes theme nights, cinema evenings, guided walks, musical performances and trips out such as karting, bowling, paintball, etc. There are also debates and theatre evenings in which the students participate. The evening programme is designed to entertain and strengthen

the bond between the participants and is often the most relaxing part of the day.

PARENTS ARE ALSO VERY WELCOME!

We very much welcome parents to our school with their children and they can enjoy special weekly adult-oriented programmes.

In the morning you can choose one of our English courses (at any level) or Business English, taught by native speakers (5 x 1.5hrs daily).

Alternatively we have a tempting sports programme: waterskiing, wakeboarding, jet-skiing and kite and windsurfing.

Additionally you could hire a motor-boat, yacht, pedal-boat and other sports equipment for the length of your stay.

Our programmes allow participants to immerse themselves into the culture, history and unique ecology of Croatia. We organise guided trips to the most interesting and historically significant cities of the country and its National Parks. We also welcome requests for individual guided excursions to places of interest.

You can also book separate going out trips with us in the evenings, including bungee jumping, karting, paintball, together with other entertaining and informative trips out.

SPECIAL IB SEMINARS FOR TEACHERS

Our School also offers summer programmes for teachers and administrators. These combine workshops on International Baccalaureate topics with English language enrichment and dynamic recreation in one of the most picturesque corners of Europe.

WEEKEND EXCURSIONS

Croatia is a land of extraordinary natural beauty and students will have the opportunity to visit its remarkable natural sites such as the Plitvice Lakes and the nearby ancient caves, and go on our traditional welcome boat trip to the surrounding islands.

Students will be able to appreciate the mysteries and rich ecological heritage of some of the most beautiful natural landmarks in Europe - Croatia's National Parks, most of which are protected by UNESCO.

Croatia is a land of great historic interest, too, and students will be guided through its historical cities by English-speaking guides. There will be day trips to the city of Split, with Emperor Diocletian's Roman Palace (still inhabited!) and the world-famous Amphitheatre at Salona, and Zadar, with its unique sea organ and white paving slabs polished to mirror shine over the centuries, breathing with history from antiquity to the present day. The enigmatic and extraordinary Pula, which used to be a Roman colony; Trogir, founded in the 3rd century B.C; Khoum, the smallest city in the world, famously in the Guinness Book of Records, as well as our customary boat trips to the islands

of Pag, Krka and Kornati, are all on offer here.

In addition to historic excursions, we offer a wide range of activity trips, including horse-riding, cycling, visit to adventure park, and rafting on the beautiful Zrmanja and Cetina rivers, for parents and children to enjoy together.

ACCOMMODATION AND LIVING CONDITIONS

Our Summer School is located in a safe, child-friendly environment, in a pine forest embracing a peninsula on the Dalmatian coast near the pretty ancient town of Zadar, washed by the warm, transparent aquamarine waters of the Adriatic Sea. We have access to all of our hotel's facilities: beaches, swimming pools, tennis courts, computer room, laundry facilities, health boutique, shop, piano ballroom, restaurant and sea-front terraces.

Students live in well-equipped 3* comfort twin rooms, all boasting spectacular sea views, with all mod cons (including air conditioning). Parents live in 4* premier club rooms with French balconies facing the sea.

Family suites (double bedroom, living room, bathroom, kitchenette and sea-facing balcony) are available at an additional cost (please refer to our website for full details).

Accommodation also includes full board at the hotel's restaurant with a four-course buffet range of plentiful, healthy, locally sourced and home-cooked meals.

DATES AND COSTS

There are 3 intakes planned for the summer of 2024. Both students and parents can book their programmes with us from 1 to 3 weeks. VAT and Local tourist tax as well as airport transfers are included in the price. For large groups and special bookings please email us at admin@integration21.hr.
